What is TiVo™?

It's a revolution in television. It's about viewer control and freedom from the dictates of channel scheduling. In short, it's about Personal TV™ – getting what you want to watch, when you want to watch it.

TiVo changes the way you watch Live TV.

With TiVo you can pause live TV, rewind, slow-motion, instant replay. You can do virtually anything with live TV that you could do with a video recorder, and more.

TiVo takes TV recording to a whole new level.

With a TiVo Subscription you can set up a **Season Pass™** and record your favourite programme every week, automatically. You can also find all your preferred programmes listed by name.

TiVo brings you more of what you like to watch.

You can personalise TiVo and teach it your likes and dislikes, using the THUMBS UP™ and THUMBS DOWN™ buttons on the Remote Control. Subscribing to TiVo will bring you thousands of programme listings, and your TiVo Recorder will search through them to find fresh programmes that match your interests.

TiVo also brings you **Channel Highlights** and **Inside TiVo**. These exclusive programming services bring you the latest information on the best programmes on television.

TiVo keeps you up-to-date

As more features become available, TiVo may occasionally update the software, loading it into your TiVo Recorder via its daily phone call. You will receive information on new additions and features as they are added.
